

**CONTESTS MARK
TOWN ELECTIONS
NEXT TUESDAY**

Next Tuesday, April 5th, is election day in the townships of Will county. The offices to be filled vary with the townships.

Contests mark some of the elections but in many candidates are without opposition.

Homer township has a contest going for highway commissioner that has been described as "spirited". The incumbent, George R. Bump, who is up for re-election on the People's ticket, is opposed by Sylvester Hostert, on the Citizens ticket.

Also to be elected in Homer is a constable. The only candidate is Edmund Sendra, and he is running to fill a vacancy. The office was formerly held by Robert Sheehy, now holding another office. A constable is elected for four years. The term in Homer has two years to run.

There is a contest for highway commissioner in New Lenox too. Willard Hafka, who now holds the office, is seeking re-election on the Town ticket, on which John E. Francis is seeking re-election as supervisor and Fred H. Scheel and Maude Ayres are candidates for the two places to be filled on the library board this spring.

Opposing Mr. Hafka is Albert F. Ziegler, who is running on the Independent ticket.

Frankfort township is without a contest. Henry Yunker, of Mokena, is running for re-election as highway commissioner, and Paul Lembke, of Mokena, is seeking to fill the vacancy in the office of assessor which still has two years to go.

No contest marks the election in Green Garden this year either. William H. Bettenhausen who was appointed to fill the unexpired term of Floyd Krapf as supervisor when Krapf was elected county treasurer, is seeking re-election as supervisor Tuesday and Earl Christiansen is seeking re-election as highway commissioner.

The polls will open at 6 a.m. and close at 5 p.m. One does not need to be registered to vote in a town election, but of course must be 21 years or over, a citizen, a resident of the county 90 days and the precinct 30 days.

**VOCATIONAL AGRICULTURE
CLASSES TAKE FIELD TRIP**

The vocational agriculture classes of Lincoln-Way school find that a view of farming from the practical side is extremely helpful in their studies of theory. So that the field trips offered such classes are looked upon with considerable favor.

The freshmen vocational agriculture class had the opportunity to visit the farm of Wilbur Francis to see his set-up for feeding beef cattle.

The major portion of the cattle ration consists of grass silage, which Mr. Francis supplements with ground corn and a protein containing stillbrest.

The members of the class were taken up into the silo to see a silo unloader in operation. A conveyor loads the silage into a wagon which has an automatic unloader powered by the power takeoff from his tractor. The whole operation is pretty much push button from the silo to the feed bunk.

Mr. Francis took the group via tractor and wagon to the fields to view some evidences of soil erosion and to outline his plan of erosion control that he has been following for a number of years.

**Albert Larenzes
Greet Friends On
25th Anniversary**

Mr. and Mrs. Albert Lorenz, lifelong residents of the Mokena area, celebrated their 25th wedding anniversary last Sunday although the date of their wedding was May 4. The reason for celebrating their silver wedding anniversary early was because their son, Pvt. Richard Lorenz, who is stationed at Camp Chaffee, Ark., was able to be home only at this time.

Fifty five relatives enjoyed a ham supper served buffet style in the parlors of St. John's church, Mokena. Rev. William Riemann gave the opening prayer and read an anniversary poem congratulating the couple.

The tables were decorated with silver streamers and candles. A bouquet of white carnations decorated the center table. Their daughter Shirley and her husband, Will Tuttle, and sons Donald and Richard, and Richard's wife, Marie, acted as hosts and hostesses.

Valerie, Diane and Will Tuttle, Jr. and Larry Lorenz presented their grandparents with a corsage and boutonniere of white carnations.

Mr. and Mrs. Lorenz received a tree adorned with silver tokens and many other gifts.

To climax the evening, a beautiful wedding cake was served with fruit punch.

**LINCOLN-WAY
WINS HIGHEST
RECOGNITION**

During the annual meeting last week of the North Central Association of Colleges and Secondary schools, membership was approved and extended to the Lincoln-Way Community high school. There were six new high schools in the area approved and accepted at this time.

This association of schools of higher learning is made up of member schools in the central midwestern states. It was founded in 1895 for the purpose of providing better schools and establishing certain minimum standards for operation. These standards of excellence, which a school holding membership in the association is expected to maintain, shall be adopted and adhered to by the school's administration.

Since Lincoln-Way is now a member and properly recognized, its graduates in turn will have more recognition and prestige as they continue their education in schools of higher learning. It is unusual for a new school to be fully accepted in this organization during its first year of operation. Credit should be given to the Lincoln-Way board of education and the citizens for providing the new building and the necessary equipment.

Membership in this association is on a yearly basis, and any school can be dropped for justifiable cause.

X-RAY EXAMS**

Students, faculty and staff of Lincolnway High School will receive free chest x-rays on Friday, April 5, it was announced by O. R. Cade, public health educator of the Will county health department. Two technicians and a mobile x-ray unit from the Illinois Department of public health will arrive at the school Friday to take the x-rays. This service is a part of a county wide high school chest x-ray survey being carried out in Will County from March 28 to April 7, sponsored by the Will County health department, Illinois department of public health and the high schools of Will county.

The purpose of this program is to find any unknown cases of tuberculosis or other types of chest diseases such as tumors, skeletal abnormalities, cancer and certain types of heart and circulatory involvements. Most of these conditions can be cured if managed most successfully if found in their early stages.

The x-rays that are taken by these mobile units will be sent to Springfield where they will be processed and read by chest specialists. X-rays which are felt to be inadequate or which require more study will be retaken at a later date on a 11x14 inch film. Students having questionable x-ray pictures will be referred to their family physicians for diagnosis.

The county health department stated, "Adults other than school faculty members will not be x-rayed at this time. Plans are being made for a county wide x-ray program to be held during the summer of 1956 for all adults in Will county."

**ARMY PINPOINTS
NIKE LOCATIONS
AT ORLAND PARK**

Location of the Nike guided missile site in Orland Park has been pinpointed by army officials, now that the site has been formally approved by the government. In a telephone conversation yesterday between Col. Thomas Lerner, U.S.A. and a representative of this newspaper, the colonel said the missile center would be located north of Route 6 and west of Route 45, on the 44 acres owned by Andrew Rafacz, adjoining the Raschke gas station to the north.

The transaction conveying title of the land to the federal government has not been completed but it is expected that it will be shortly and work on preparing the site is scheduled to begin in the near future, it was stated.

No missile will be fired from the site, an army spokesman said unless there should be an emergency, and no unit firing will be conducted there. Work is expected to be completed next year.

The installation will consist of 21 officers and 182 enlisted men. Permanent barracks are to be built on the site. Families of married men are expected to reside in nearby communities.

The installation will have its own water supply and its own garbage disposal system. The army says there will be little military traffic to and from the site.

**Fails To Recognize
Frankfort Relative
Behind His Beard**

What troubles these beards do make. By way of explanation, it should be known that patriotic Frankfort men are growing beards. They have gotten off to an early start to make sure that when Centennial Days roll around, some time in August, they will have a good, healthy crop of spinach.

Well, to make matters interesting, it is reported that two close relatives, a man and a woman, both of Frankfort, happened to be shopping in a nearby shopping center last Friday. The woman glanced at her relative like she might have glanced at any stranger but there was no light of recognition in her eyes, because of the heavy growth he had accumulated on his cheeks and chin. The man, of course, recognized his relative, and winked at her. This got her dander up, and she strutted off like a wet hen.

However, the Frankfort man, with the law on his side, was not disposed to give up so easily. He pursued his relative, grabbed her by the arm, and said, "Say, Sis, don't you know me any more?"

Following which there was a great deal of laughter.

**L-W PARENTS
GROUP TO ADOPT
CONSTITUTION**

The next meeting of the Lincoln Way Parent Teacher group will be on Tuesday, April 5 instead of Wednesday.

The second reading of the proposed Constitution will be on the agenda and a vote on its adoption will then be made, according to president Mrs. Herbert Folkers.

Report by the nominating committee will be made by chairman Mrs. Jerome Deaney.

The program will be a panel discussion and presentation of the guidance program at work under the direction of Ralph Wright and Mrs. Alice Gorman of the counselling service. Mrs. Louise Powers, chairman of the committee in charge, announced the program for the May meeting will be under the direction of Mrs. Florence Butler, head of the Home Ec department and will feature a style show. Her students will model the clothes they have made. String music will be played.

Every parent is a member of the Parent Teacher group but some have forgotten to obtain their membership receipt. To remedy this one way, contact chairman Henry Clark or any member of the membership committee and pay their dues, 50 cents. Those who cannot attend the meeting may send the money to school with their sons or daughters. It would be quite a record if Lincoln-Way were to have 100 persons and up membership in its charter year it was pointed out, thus showing that all the parents are interested in their children's welfare.

Mr. and Mrs. Leroy Mager of Frankfort will be in charge of the refreshments following the meeting and the members of their committee are: Ann Harris, Mr. and Mrs. Alfred Zechlin, Mr. and Mrs. Wilbur Emmerich, Mr. and Mrs. Rudolph Guzik, Mr. and Mrs. Al Hochberger, Mr. and Mrs. Roy Koerner and Mr. and Mrs. Fred Peenebrink of Frankfort; Mr. and Mrs. Geo. Accident On Rt. 30**

Loren Sass, of Marley, was involved in an auto accident on Route 30 and Briggs st., Joliet, Sunday afternoon, about 2:30, in which nobody was injured.

Mr. Sass was driving his Ford east towards New Lenox on Route 30, at about 30 miles an hour, when a Mercury passed him, pulled into his lane, and then suddenly stopped to make a left hand turn north on Briggs st. Thinking the car that had just passed him would continue on, Mr. Sass was surprised at the other driver's sudden decision to stop, and this, combined with a wet highway, caused his car to skid into the other car as he applied the brakes.

Driver of the other car was Jack Bitterman, 19, of Randall Court, Damage to his car was slight; trunk dented and right tail light shattered.

Damage to the Sass car was, two front fenders smashed, hood sprung, grill caved in, and radiator punctured. The car was towed to Supreme Auto Builders, Joliet, where it was estimated the damage would amount to \$300.

Riding with Mr. Sass were his daughter, Cheryl, Betty Anderson and Arlene Blaha, all of whom were frightened and shaken up, but who, fortunately, escaped injury.

**Pick Two Thrillers
For Mokena Library**

The books selected for the Mokena library this month are rated as the best in current fiction. "The Hidden River", by Stephen Vincent Benet, is a novel to a great number of adult readers. It is the story of an English ex-officer returning to France after the war to express his gratitude to the Monnerie family for saving his life. He arrives at a tense moment, for this family proud clan learns that Francois Monnerie had betrayed his kinsmen during the war. The differing reactions of the family are described with pity and clarity. The Hidden River is a neatly plotted, suspense thriller.

The second selection is "The Good Shepherd" by Cecil Scott Forester. This book, a novel, deals with the United States Navy during the most critical days of World War II. The action takes place aboard the American destroyer, Keeling, commanded by George Krause. His mission is to lead the protecting screen of a convoy of merchantmen from America to England. During this period there is never a dull moment for Commander Krause has to make momentous and often hideous decisions while terrible things are happening around him. Through daylight and darkness submarines are being attacked, merchantmen are being sunk and

There are also three other groups, the chorus of ginger bread men who are fourth and fifth graders; the Angels which are sixth grade girls and the fairy dancers who also are fourth and fifth graders. The special boys and girls chorus, made up of seventh and eighth graders will sing. Donita Herre will play the piano.
Mrs. Zahler designed the stage setting. The operetta has three acts and is a little different from the original story. Mrs. Jahn is the director.

CHRISTIAN SCIENCE CHURCHES
How spiritual understanding of futurity of materialism will be God brings freedom from the brought out in the Lesson-Sermon entitled "Unreality" at Christian Science services, Sunday, April 3.
Selections to be ready from the King James Version of the Bible will include the following from Jeremiah (2:5): "Thus saith the Lord, What iniquity have your fathers found in me, that they are gone far from me,

and have walked after vanity, and are become vain?"
From "Science and Health with key to the Scriptures" by Mary Baker Eddy the following passage will be among those read: "The perfect Mind sends forth perfection, for God is Mind. Imperfect mortal mind sends forth its own resemblances, of which the wise man said, 'All is vanity'" (239:29).
The Golden Text is also from Jeremiah (4:14): "O Jerusalem, wash thine heart from wickedness, that thou mayest be saved. How long shall thy vain thoughts lodge within thee?"

Use 1600 Tons Coal Daily At New Wilco Com. Edison Plant

A twelfth big electric generating plant became a part of the Commonwealth Edison system March 21 when the new Will County station of the Public Service company division was formally put in commercial operation.
The station, which has been under construction for more than three years, went into service with a 160,000 kilowatt generating unit. A second unit of the same size is to be completed in the summer of 1955, while a third of 250,000 kilowatts is scheduled for completion in 1957.
The station is located on a 216-acre tract of the Chicago and Sanitary Ship Canal near Lemont.

Will County incorporates all of the latest improvements in electric generating station construction and operation. A coal burning plant, it will require less than one pound of Illinois coal to produce a kilowatt-hour of electricity. This compares with one and one-half pounds per kilowatt-hour in some older stations and an average of 1.23 pounds for the Commonwealth system in 1954.
The station has facilities for both rail and barge shipments of coal. Most of the fuel will come from central Illinois mines. Each of the two 160,000 units will burn about 1,600 tons of coal in a normal day's operation. The 250,000 unit will consume an estimated 2,500 tons daily. Therefore, when the station has the three units in operation it will require approximately 5,700 tons daily.

The stacks for the first two units are 350 feet high and that for the larger 250,000 kilowatt unit will tower over 400 feet in the air. All the units will utilize the most modern and efficient equipment for the removal of fly ash.

Don Cooper says 'IT'S A FACT'

In the Congo Caves of South Africa are found limestone that can float. A body will float if the weight of the water it displaces when totally emerged is heavier than the weight of the body itself. These limestones are of this category. 1. Articles by Thomas W. Phelps - "Poplar Science Monthly," July 1928.

1954 Stainless Steel Output
Production of the chromium-nickel stainless steels in the United States in 1954 is estimated to have been about the same as in the previous year, although total output of all types of stainless steels is believed to have been below the record high attained in 1953. Chromium-nickel stainless steels continued to be employed extensively by the aircraft, architectural, chem- ical, food processing and petroleum industries because of their superior resistance to heat and corrosion, good appearance and ease of fabrication.

For top milk production from every cow... you must
have a pulsation rate that cannot vary from day to day,
from milking to milking.

Only De Laval Magnetic Pulsation Control gives
you this essential uniformity.

Remember, before you invest in any pipeline milker,
that the De Laval Combine was the first pipeline milker
... and that it is still first in performance. Only the De
Laval has the famous De Laval Magnetic Control!

See us today for the valuable free Combine Milker
book.

THE DE LAVAL MAGNETIC CONTROL
is factory set for the ideal pulsation rate
of 48 per minute. It cannot be
changed at the whim of the
operator, but milks each cow at
the perfect milking speed every
time.

De Laval "Full-Flit" test cup is the
greatest milking hand that ever touched
a cow... for cow comfort, cow health,

Transportation and traffic
problems involving highways,
trains, speed limits and automo-
bile license plates were in the
spotlight during last week's
meeting of your state legisla-
ture.

The fight against the toll road
program flared anew as oppo-
nents of the toll system gave no-
tice of their intention to renew
their battle for an intensive in-
vestigation of the entire program
and the powers of the toll road
commission that will finance and
direct the road construction.

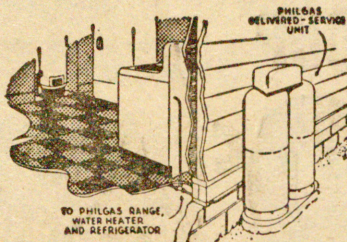

A similar move a few weeks
ago failed by only three votes.
A committee hearing on a bill
for one-seat transportation to
Chicago for this area was post-
poned at the request of the Chi-
cago corporation counsel.

The counsel asked for delay
in order to give the Chicago Me-
tropolitan Transit authority suf-
ficient time to prepare its argu-
ments on the bill and to notify
persons wishing to testify when
the House Public Utilities com-
mittee again considers the meas-
ure.

In other action last week a
bill for a 65 m.p.h. daytime and
55 m.p.h. night speed limit for
passenger cars was introduced.
The bill also sets up rates of
speed for trucks and buses and
would permit cities and counties
to establish their own lower lim-
its where they are considered
necessary.

You may be able to get a low-
er license plate number for your
car in a few years and you may
be able to buy your plates at the
county court house instead of
sending away for them.

A number of measures for the
county sale of license plates is on
file and one would give each
county its own identifying letter
on the plate with a series of

numbers starting with one in

A feature of these bills that
may, not be quite so appealing
to some taxpayers is that they are
designed to tighten up the col-
lection of the personal property
tax on passenger cars.

The resolution to work out a
Korean veteran bonus cleared its
first legislative hurdle last week
when it received approval by
the House Appropriations com-
mittee. Before a final vote on
its passage it will go to another
committee for further consid-
eration.

In the Senate the provision
to make "Land of Lincoln" our
official state slogan is on final
passage stage. The measure to
create a new state song to the
tune of Battle Hymn of the Re-
public is not expected to pass
in the House.

Rough treatment for persons
caught putting slugs in coin tele-
phones will be provided if a bill
just tossed into the hopper is
passed. It establishes fines of up
to \$500 or imprisonment of up
to one year for such offenses.

**Police Surprise
Glenn Logan When
He Calls For 'Story'**

by Charles A. Singler
Glenn Logan new managing
editor of the Semmler Newspa-
pers, got quite a surprise when
he stopped at police headquar-
ters in Joliet last Friday, to get
what he supposed was his last
story as news editor of WJOL,
from which position he was re-
signing.

Joliet Police Chief Ervin F.
Boe had asked Logan to come to
his office at 10 a.m. for a news
story that was about to break.
To Logan's surprise he walked
into, not a story, but a party.
Gathered together and waiting
for him were several officers
and fellow staff members from
WJOL.

Chief Boe presented Logan
with two fine pieces of luggage,
the gift of police personnel, in
recognition of Logan's many
years work on the police beat.

Logan thanked the chief and
officers for their splendid co-
operation during his many years
association with them, and said:
"I was always happy to work
with the Joliet police depart-
ment."

WJOL engineers recorded the
event on tape.
Mr. Logan was formerly city
editor of the Joliet Herald-News.

**Now Everyone Can
Learn Shorthand
So Teacher Says**

At sometime or another prac-
tically every one has wished
they could take shorthand. Now
they can.

J. Bryce Sardiga, of the Lin-
coln-Way faculty, plans a course
to be offered at night school
that is listed as "Shorthand for
Everybody." And he means it.

The system is made up of let-
ters of the alphabet and a few
other symbols instead of loops,
hooks and shadings.

An average student can pick
up this system within a very
short time, according to Mr. Sar-
diga.

Mr. Sardiga hopes that every-
one interested in acquiring a
shorthand system will contact
him. The course will run five or
six weeks. It was explained and
those learning the system now
can join a class in the fall to
work for speed.

**PIPER SUDAN PERFORMS
WELL IN ILLINOIS**

Piper outperformed all other
Sudan grass varieties in Illinois
variety trials last summer. It
outyielded all others, had a low-
er Prussic acid content and stood
up well against leaf diseases and
chinch bugs.

University of Illinois Agrono-
mist C. N. Hittle reports that
Sweet Sudan also showed up
well in the tests. It yielded a
little below Piper but was not
damaged by chinch bugs. It did,
however, suffer damage from leaf

diseases.

Two other varieties tested
ranked much lower than Piper
and Sweet Sudan. Common Su-
dan produced low yields and was
severely damaged by both leaf
diseases and chinch bugs. A new
variety from another state,
Greenleaf Sudan, came through
with low yields, but it did re-
sist disease and insects. It ma-
tures late and it needs further
testing before the rest of its per-
formance in Illinois will be
known, Hittle says.

**BERT H. FULTON SCHOOL
NEWS**

Spring has officially come to
the Fulton school. On a walk
through the halls one sees many
things that the children have
made which indicate to them that
Spring is here. There are kites
flying on the walls in room 105.
These children also have a lovely
amaryllis which has four bright
blooms.

The third grade in room 103
have made a mural which is
hanging in the hall. It grew out
of a social studies project and
depicts people of the far North.

The second graders in room
106 are busy watching the re-

turning birds. They are working
on a science unit in which they
will learn about birds, their hab-
its, food, nests and young.

The first graders in room 104,
are concerned with birds too!
They have a parakeet which is
"allowed" out of his cage for the
morning hours. The problem is
the bird. He is never in the cage
when his "free time" is up. Some
children feel he should learn to
tell time. These boys and girls
are soon to work on a science
project involving seeds, and how
they grow. We have postponed
work on it until after Easter Vac-
ation so that we can take care
of the seeds and observe their
growth.

Boys and girls in Miss Kelly's
second grade are very proud of
a very attractive mural they
have constructed to illustrate
their language arts lessons. Es-
pecially attractive is the picture
of mother, father, and baby bear.
Children are really wonderful!

ances originated in 1921 at the

To All My Patients,

Our relations have been so pleasant in the past that I felt I could not leave this practice without making proper preparations for your welfare by obtaining a man who could take my place with you. As you undoubtedly know, I have been called into military service.

I feel that I am exceptionally fortunate in obtaining Dr. Carlos Sarmiento as an associate who will continue to be associated with me when I return from military service. Dr. Sarmiento is a graduate of the University of Havana, the same school from which I graduated.

He has taken up all my duties and will fulfill all of the responsibilities during my absence and remain after I return from duty. The office, the telephone and everything else remains the same. You can call or continue your appointments without interruption in the slightest degree.

I regret, of course, that I will no longer be able to serve you during my period of military service. I felt a deep pleasure in the work done for you and the pleasantness of our personal association in addition to the professional. I could not leave without doing my best to provide for your welfare during my period of absence.

Dr. J. L. Gonzalez

toms for reasonable periods in return for comparable reciprocal benefits."

2. "We recommend that the specific items on which the President is to report to congress include the status of compliance of foreign countries with their undertakings under existing trade agreements."

3. "Particularly since the war a great many restrictions have been imposed by foreign governments to limit international trade."

4. "Heading the list of restrictions to international trade by other nations are import licenses and quotas."

5. "The expansion of international trade on a mutually advantageous basis is of vital importance to the prosperity and security of the United States and cooperating nations."

6. "We should insist that other nations live up to the spirit of their commitments."

A Clarifying Statement

Under questioning before the Ways and Means Committee, Secretary of State John Foster Dulles testified that Europe today has a \$14 billion reserve - the highest dollar reserve in her history. This testimony refutes the general impression that "Europe cannot buy American goods because of her dollar trade shortage."

Russians Not All Communists

Russia and its Soviet government has not at any time put communism fully into effect. The owners and rulers of the state and all its property are the members of the Communist Party, a group of approximately 6,000,000 within Russia, which makes the rules for all 180,000,000 Russians. There is no equal division of property, labor, goods, income and harvests. Nobody owns anything; the state owns all things - and divides the products as the ruling bosses dictate.

"Russian communism has become a system of government tyranny bent upon making the tyranny worldwide. Russian communism seeps into a country, wears sheep's clothing among sheep, sings loudest at the church services, sheds rivers of tears over the workmen - and as soon as it has control of the police department, turns about and imprisons or kills those it formerly hailed as friends."

Collegiate Dads Day celebrations originated in 1920 at the University of Illinois.

The Rural Department, Drew Seminary, Madison, New Jersey has recently visited 1542 Negro homes in 17 counties in the South to learn what the actual conditions really are. The average Negro tenant has half the income from half a farm. He had completed the 5th grade, had a gross family income for the year of \$1115, had a garden but no fruit, walks 4 miles to church twice a month and hears a minister with a ninth grade education. This study shows that the American churches have not yet faced this national problem. The report of this study of 104 pages entitled "These My Brethren" and is being distributed upon request.

Mrs. E. Mrosek
Orland 41-J-1

The 4H membership drive is in full swing. "Any boy or girl who is at least 10 but not yet 21 years of age by July 1" may become a 4H member. In those districts where there are not or ganized 4H clubs, it is hoped enough young people will join so that new clubs may be started. Anyone interested in becoming a member is invited to attend a meeting, talk with a 4H club member or leader or call the Farm Bureau in Tinley Park for information.

A regular meeting of the Maue school board was held at the school Saturday afternoon. Following the usual business, Board members discussed the subject of special schools for handicapped children of elementary school age as proposed at a meeting held in Carl Sandburg high school Friday evening.

Mr. and Mrs. Albert Reeves attended the funeral of his grand father, Eugene Morgan, 86, in Harvey Friday afternoon. Interment was in Oak Lawn cemetery in Thornton.

A few cases of mumps have been reported in and around the district.

Maue's upper grade school children have started their annual magazine drive.

Last week's cold spell was a bit tough on some of those who hoped they had enough fuel oil to last out the heating season.

Rodney Knieriem, who has been out of school because of illness, is recovering nicely.

Mr. and Mrs. Owen Maue entertained the Saturday evening club in their home Saturday evening. The occasion was in honor of members whose birthdays occur in March. Games and a pot luck supper were enjoyed.

Arthur, son of Mr. and Mrs. Owen Maue, is a member of the confirmation class which appeared before the congregation of St. John's Evangelical church for public recognition Sunday.

Square dancing is scheduled for Friday evening, April 1, at Maue school. School children will be notified if any change in date is made.

The Orland Boys 4H club met Monday evening, March 21, at the Maue school.

At the meeting it was announced that Edward Mrosek Sr. was going to assist Norman Bernard as club leader. The 1955 membership drive was also discussed. Any boy between 10 and 21 years of age who is interested in becoming a member is invited to attend a club meeting or to see a 4H club member or leader.

Duane Erickson and Leslie Yunker each gave a talk on Carling for Calif. Edward Mrosek Jr. gave a report on the "kick off" meeting which had been held at the farm bureau for the purpose of discussing the membership drive.

After the business meeting recreation and refreshments were enjoyed. The refreshments were served by Walter and Larry Reeves and Robert Stoutenour.

Modern Jewelry Metal

Palladium, one of the rare platinum group metals, is taking a noteworthy place as a modern jewelry metal. Its brilliant white appearance, ready workability, and dependability in holding gems securely, make it highly desirable for fine jewelry. Because of its lightness in weight, it is particularly suitable for pendant pieces such as ear clips, brooches and necklaces.

The Cost: A Cross

Lesson for April 3, 1955

PEOPLE who don't know the
least thing about Christian re-
ligion do know this much, that it
has something to do with a cross.
You can't go into a church without
seeing one. Many churches are
even constructed in the shape of
a cross. You can see one above
the door or on the steeple. At this
time of year it is well known as
a rare newspaper which does not
carry somewhere the picture of a
cross to go with Good Friday me-
diations or a Good Friday editorial.

But if the cross is known even to per-
sons altogether outside the Christian faith, it is
infinitely better known to those on
the inside. The deeper one pen-
etrates into the meaning of the
Christian faith, the more luminous
the cross becomes. One might say
that the cross is both in the pre-
school and the post-graduate
courses in Christian growth and
knowledge.

Sacrifice Unlimited
The familiar cross of Christian
art and architecture is a prettified
version of an ugly thing, a cruel
instrument of torture and death
used by Romans only in case of
executing slaves and the vilest
criminals. Jesus was neither the
first nor the last to be crucified.
There are people who would call
the cross itself an "historical ac-
cident." That is to say, if Jesus
had lived in other eras or in other
climates, he might have been
killed by being frozen to death or
buried alive or hanged or gassed.
But that is neither here nor there.
The meaning of the cross is not
in the shape of a certain wooden
thing that was used to kill people
in a painful and horrible way.

The meaning of the cross is simply
this, in two words: **Sacrifice un-
limited.** Paul puts it as simply
as possible: "Christ died for all."
He taught all. He set an example
for all. He challenged and inspired
all—that is, all who as He said
"had an ear." But the cross re-
minds us that He died for all.
"For their sakes," Jesus himself
said, "I dedicate myself." How
far would that dedication go?
Many a person will say sincerely,
"I will do anything in reason, to
help you." Christ went farther.
It was not "reasonable" that He
of all persons should give up His
life for lesser men; but the kind
of dedication that was His, did
not stop at the limits of the re-
spectable and reasonable.

What Christians Remember

One might suppose that the
Christian church would have liked
to hush up the story of the cross,
especially after the resurrection.
It was a very ugly fact and as
such was a handicap to the early
Christians. Both among Jews and
non-Jews, the cross was a kind of
real curse. When the Christians
preached Christ crucified, many a
listener's reaction was: "Ask me
to take for Master and Lord an
executed criminal? Never!" But
the Christians went right on with
the story of the cross. The gospels
give that story more space than
any other event in Jesus' life. And
the Christian church has never
forgotten nor tried to forget it.
For what it means to us is that
God in Christ was far more than
the fabled Greek gods who some-
times took human shape, some-
times shared with men their
Olympic wisdom, but never suf-
fered for them. It is known to
Christians that the cross measures
the immeasurable love of God for
us and for all men.

What Christians Forget

What Christians too easily for-
get is something Jesus set in the
center of his teaching. He spoke
of His own cross, but He in the
same breath would speak of the
cross of His followers. The cross
does not stand alone for one past
event. It is intended to stand as
a prophecy and pattern for every
Christian's life. One modern trans-
lator of the Bible, coming to the
verse, "Let him take up his own
cross and follow me," boggled at
that word "cross" and translated
it "Let him take up his own yoke."
No, there's no bypassing the
intention of Jesus, one who meant
what he said. And what he said
amounted to this: For the Chris-
tian, one who wants to be a fol-
lower of Jesus, there must be no
limit set on love's devotion. The
Christian cannot say, if he really
follows his Master, "I will do any-
thing—in reason... I will make
any sacrifice—that does not cost
me too much..."

ORLAND PARK

Mrs. Sherman Knox
Orland Park 211W

Members of the Orland Park Methodist church will serve breakfast Easter morning at 7:30 a.m. following the Sunrise service. Everyone invited to stay and have breakfast after the services.

The Senior Girl Scouts, troop 257 have planned a "Splash" party for Saturday, April 2, at the new YMCA pool in Harvey. All invited guests are to meet at St. Michael's church at 6 p.m. sharp. A bus has been secured for transportation. Mrs. Herbert Lucas and Mrs. Eric Enblom, leaders, will be in charge of the group.

Mabel Ekberg will open her home for the regular meeting of Orland Park unit 526, American Legion Auxiliary, Monday, April 11. On account of Good Friday falling on regular scheduled meeting day, it was changed to the following Monday. All members urged to attend. Mrs. H. Adele Cooper attended the Patriotic conference, in place of Mrs. Hilda Nitsche, president who was unable to attend. She will give her report at this meeting.

Mrs. Elizabeth Beauregard has been a patient under treatment for the past week in Silver Cross hospital. From last re-

ports, she is improving nicely. Mrs. James Creer has been on the sick list the past week. She is feeling some better.

Timmy Pomeroy, 5 year old son of Mr. and Mrs. Jim Pomeroy, is minus his tonsils as he underwent a tonsilectomy March 22, that awful Spring wintry day, in Silver Cross hospital in Joliet. He came home the next day and is doing nicely. He would enjoy having his little friends call on him.

Byrom Crosman of Portland, Oregon while on a business trip to Chicago a week ago Friday, stopped in Orland to visit the Jim Pomeroy's. He is the husband of their daughter Leila.

Leila and their two sons expect to visit in Orland sometime this summer.

Mr. and Mrs. Franklin Kruspe and sons have returned from a two weeks vacation in Florida. En route they stopped at Richmond, Ind. to visit their uncle, Joe Denny. They made their headquarters at Mr. and Mrs. Henry Stege's, parents of Mrs. Kruspe, in St. Petersburg, Fla. The family stopped at Key West Miami and other points of interest, and report having had a wonderful time, weather being ideal.

Mrs. Lloyd Warning, Mokena, entertained at a double birthday party Sunday, honoring the birthday of her husband and brother Wm. Schmidt of Orland Park. Guests included sister, Christina. Mr. and Mrs. Martin Mueller brother John of Mokena, and his grandsons, John and James McClaughry of Chicago.

Last week Wednesday morning, the Orland Fire Dept. responded to a call at the Wm. McAlister Sr. home on Ravinia ave. which proved to be a chimney fire. No damage was reported.

If a Red Cross volunteer has as yet not called upon you for the 1955 Red Cross drive, you still have time to make your contribution by mailing it to Mrs. Sherman Knox, Box 103, Orland Park. Make checks to the American Red Cross.

GOOD GUIDE TO RESPONSIBILITY

When it comes to fences, whose responsibility is what, according to the law? That and many similar questions are questions answered for Illinois farmers in a University of Illinois circular called "Illinois Fence Laws." You can get a copy from your farm adviser or by writing directly to the College of Agriculture, Urbana.

According to the circular, the term animals includes poultry, and it is the owner's responsibility to fence animals in, not the neighbor's responsibility to fence them out.

Some of the problems get complicated. If your animals get on to a neighbor's farm through his section of the fence and his fence is not in good repair, you are not liable. According to law, you can force him to fix the fence. However, you can't simply turn your animals in if his fences are down.

If someone takes care of your animals, he is liable for them. However, according to the circular, if you have an unruly animal and don't tell him about it, you are responsible. You may have to answer not only to an injured party, but to the caretaker as well.

This circular was written by H. W. Hannah, professor of agricultural law and associate dean of the College of Agriculture. Although the circular will serve as a good guide, Hannah warns that it cannot be used as a substitute for legal skill and advice one should employ when a dispute arises or seems likely to arise.

ELECTRIC BLOWER TAKES STRAIN OUT OF MOVING FEED
Tired of carting ground feed long distances from bin to feeder? Many Illinois farmers are taking the back-strain out of this work with an electric blower.

If you want to blow your feed, you'll need an electric motor, a blower and some sheet steel pipe, says R. W. Kleis, agricultural engineer at the University of Illinois College of Agriculture.

A one - to five-horsepower motor will work in most cases, depending on how much feed you want to move and how far. Illinois farmers have blown feed as far as 300 feet.

Sheet steel pipe is relatively easy to get, and the cost is low. You can run the pipe around corners if you need to. Since the pipe is light in weight, you can put it up high, out of the way, Kleis says.

Service and upkeep cost on

blowers is low because the blower is the only moving part.

If you'd like more information on blowers, write to the Agricultural Engineering Department, College of Agriculture, Urbana, for Rural Electrification Leaflet Number 6, "Blowing Grain from Storage to Feed Area."

What Will They Think of Next?

For motorists who want a warm car waiting on a cold morning, a manufacturer offers a portable electric gadget that automatically turns on the engine. Plugged in at night to any AC outlet, it turns on the heater at any given time next morning.
